PROGRAM  
OVERVIEW

## Simplify and Save with Direct Payment

### What is Direct Payment?

Direct Payment is A Better Way to Pay for Healthcare. Your personal health assistant is here to help you navigate complex procedures like surgery and save on your out of pocket expense. ***All employees and dependents insured through the UIW medical plans are eligible for this valuable service!***

- We will personally walk you through the decisions you need to make. We will help you choose quality doctors and evaluate facility costs.
- We'll help with appointment scheduling and coordinate every aspect of your care, before, during and after surgery.
- We'll answer your questions and help you understand your options, so that you can make the best choice....for you.
- We'll help you save time and money by paying the full bill on the day you receive a service, even when most of the funds come from your health plan.
- When all parties agree to a cash price and the bill is paid in advance, you may save on out of pocket costs and share up to \$500 in savings.
- With Direct Payment, you should not receive any bills, and we will be there to help if you receive a bill in error.

Direct Payment procedures include orthopedics, general surgery, high cost diagnostic procedures and many more. Call us whenever your doctor recommends surgery or a high cost diagnostic procedure to find out whether Direct Payment could work for you!
