Specialty medications include prescribed drugs that:

- Are generally high in cost, complexity, or touch
- Treat complex, chronic conditions such as cancer, rheumatoid arthritis, and multiple sclerosis
- Require frequent dosing adjustments or intensive clinical monitoring
- Limited distribution
- Require **Special** handling

Specialty medications are covered when purchased through Express Scripts' Specialty Pharmacy, known as Accredo

- Accredo can be contacted at **800.922.8279**. Members can also contact the RxBenefits Member Services team for assistance at **800.334.8134**

- Enrolled members pay \$0.00 for targeted medications.
- Members who do not enroll will pay a 30% coinsurance for targeted medications.
- Plan specific specialty cost share applies to specialty medications not targeted by SaveOnSP (SOSP).
- Prescriptions filled through SOSP DO NOT accumulate towards the member deductible or maximum out of pocket.

PAY \$0 FOR SELECT SPECIALTY MEDICATIONS

Participate in the
SaveOnSP program

Specialty medications can cost a lot of money. That's why your plan offers a program called SaveOnSP, to lower your out-of-pocket costs to \$0.

Participate in SaveOnSP and save.

Over 300 specialty medications are eligible for the SaveOnSP program.¹ If you're filling an eligible medication, a representative from SaveOnSP will contact you to discuss the program.

You'll pay \$0 for your medication when you participate in SaveOnSP. If you choose not to participate, you'll pay a higher cost share when you fill your medication.

Conditions covered by SaveOnSP include, but are not limited to:

- Hepatitis C
- Multiple Sclerosis
- Psoriasis
- Inflammatory Bowel Disease
- Rheumatoid Arthritis
- Cancer

Here's an example of how it works.²

John's taking a specialty medication that's eligible for the SaveOnSP program. His copay is currently \$70. His new cost share will be \$1,150.

- **When he participates in SaveOnSP, he won't pay anything (\$0) out-of-pocket.** He will work with SaveOnSP to enroll with the applicable manufacturer copay assistance program.
- **If he decides not to participate in SaveOnSP, he'll pay his full cost share of \$1,150 out-of-pocket.**

In both of these examples, John's cost share wouldn't count toward his deductible or out-of-pocket maximum.

When your doctor prescribes certain medications, your pharmacist may tell you it requires PA. That means we need information to make sure the medication will work well for your condition, and that it's covered by your pharmacy benefit. Your doctor has access to the required information to complete the PA.

If your medication requires a PA, the pharmacist will see a message in their system at the point of sale.

**PA REQ MD-
RXB.PROMPTPA.COM or
CALL 888-608-8851**

Start the PA Process

Your doctor's office will need to initiate a medication PA review.

The pharmacy may contact your doctor to deliver the claim's PA messaging, or you can contact your RxBenefits' Member Services Team to request an outreach.

Typical reviews take 24-72 hours, depending on the information sent and responsiveness of the physician's office

PAs are managed by the RxBenefits PA Review Team. Here is how to submit a PA:

Method 1

Utilize the online portal
at RxB.PromptPA.com

Initiate a review, complete the drug-specific question set and submit chart notes electronically, and check the coverage determination within the portal.

Method 2

Utilize the attached PA form and fax to **888.610.1180** or email to PA_Support@RxBenefits.com

For most PAs, the standard turnaround time is 1 - 3 business days. If for some reason, you need an expedited review, please contact the PART team.

Prior Authorizations are designed to ensure that certain prescription drugs are used for appropriate medical purposes as approved by the FDA (Food and Drug Administration). This helps to make sure that your medications are safe, effective, and more affordable.

Q: Are my drugs covered?

A: You can access a copy of the most current Preferred Drug List at www.Express-Scripts.com or by contacting RxBenefits Member Services at **800.334.8134**. Formularies change, so your medications may not be in the same tier level as last year, so please review the preferred drug list since it may provide lower cost alternatives for your medications. Also, discussing generics with your physician could save you money.

Q: If my coverage is with Express Scripts, why do I need to call RxBenefits?

A: Your benefits are being provided by Express Scripts, but RxBenefits administers the services for a more personal approach. You should contact RxBenefits for any pharmacy-related questions.

Q: What happens if my questions require contact with Express Scripts?

A: RxBenefits Member Services reps have access to the Express Scripts systems. If RxBenefits needs to contact Express Scripts to resolve an issue, they will stay on the line, explain the issue, and continue to monitor your problem until it is resolved.
