

# Android Wireless

Wireless networks for both employees and students are available using your UIW credentials.

1. To begin connecting from your Android device, open your WiFi Settings

2. Select either the uiw-employees or uiw-students network.

3. Enter your username (do not include the @student.uiwtx.edu or @uiwtx.edu) in the Identity field, type in your password and press connect.

A screenshot of the login screen for the "uiw-students" network. The title is "uiw-students". There are three input fields: "Identity" (with a blue cursor), "Anonymous identity", and "Password" (with the placeholder text "Enter password"). At the bottom right, there are two buttons: "CANCEL" and "CONNECT".A screenshot of the login screen for the "uiw-employees" network. The title is "uiw-employees".
