

# Learning Communities

## Fall 2019

In a Learning Community, students enroll in two or more classes together to create a "community" of learners. At UIW, dynamic and experienced faculty have teamed up to plan and teach these paired courses to offer additional support and opportunities for our students. **Students must register for both (or all) designated classes in a learning community as they share learning outcomes and common themes.** Students can identify courses in learning communities on the course schedule as the sections of the courses begin with "x."

**The following learning communities are available for our students for fall 2019:**
