You may exclude the Bibliography and quotes from the report in the settings, or, later, in the report itself.

Indexing is the process of adding the document to the Turnitin database for future comparisons.

\*\* The Plagiarism Draft Check assignment, in the Orientation module that is part of your course BluePrint, is set with the Index all submissions box UN-CHECKED. Drafts submitted by students will not be added to the Turnitin database. That allows for multiple submissions of the same document

7. From the Show reports drop-down, choose if or when you would like your students to see their report. It may take up to an hour, or longer, after submission for the Originality Report to become available, depending on web traffic.
